Controlled states: actual 4 kWh; reference 9 kWh; target 9 kWh
Same 5 kWh deficit in every cell; infeasible costs remain undefined
A Feasibility and cost
Actual recovery infeasible
Physical grid import cap (kW)
Deadline after detection (h)
Additional recovery cost (USD)
B Cost at each required deadline
5.5 kW cap
7 kW cap
9 kW cap
Deadline after detection (h)
Additional recovery cost (USD)
C Same energy deficit, different price
2 h deadline
3 h deadline
4 h deadline
Multiplier of the same posted tariff
Additional recovery cost (USD)
